

Business Requirements Document (BRD)

Project Title

National Case Management Platform for SGBV and TFGBV Incident Reporting

Version Information

Item	Details
Project Name	National Case Management Platform
Document Type	Business Requirements Document
Version	1.0
Prepared By	Ravidu Yasintha
Date	June 2026

1. Executive Summary

The National Case Management Platform is a centralized digital solution designed to facilitate the reporting, tracking, and management of Sexual and Gender-Based Violence (SGBV) and Technology-Facilitated Gender-Based Violence (TFGBV) incidents in Sri Lanka.

Currently, victims often face difficulties identifying the correct institution to report incidents and are redirected between agencies such as the Police Women and Children Bureau, Cyber Crimes Investigation Division (CCID), National Child Protection Authority (NCPA), and Ministry of Women Affairs.

This platform aims to streamline the reporting process and improve coordination among relevant stakeholders.

2. Business Problem

Current Challenges

- Victims do not know where to report incidents.
- Multiple organizations operate independently.
- Case information is fragmented.
- Delays occur when transferring cases between institutions.
- Limited visibility into case progress.

Impact

- Reduced victim confidence.
- Longer resolution times.
- Duplicate data entry.
- Poor coordination among agencies.

3. Business Objectives

Primary Objectives

1. Provide a single reporting platform.
2. Automatically route cases to the correct institution.

3. Improve collaboration among agencies.
4. Increase transparency of case status.
5. Reduce reporting and response times.

4. Scope

In Scope

Citizen Functions

- Incident reporting
- Anonymous reporting
- Case tracking
- Document uploads

Agency Functions

- Case assignment
- Investigation updates
- Case status management
- Inter-agency referrals

Administration

- User management
- Role management
- Reporting dashboards

Out of Scope

- Court management processes
- Medical treatment management
- Financial compensation systems

5. Stakeholder Analysis

Stakeholder	Role
Victims	Submit incidents
Police Women & Children Bureau	Investigate cases
CCID	Handle cyber-related incidents
NCPA	Child protection cases
Ministry of Women Affairs	Monitoring and policy oversight
System Administrators	Platform administration

6. Functional Requirements

FR-01 Incident Reporting

Users shall be able to submit incidents through an online form.

FR-02 Anonymous Reporting

Users shall be able to submit reports anonymously.

FR-03 Case Tracking

Users shall be able to track case progress using a reference number.

FR-04 Automatic Routing

The system shall automatically assign cases to the appropriate authority.

FR-05 Case Status Updates

Authorized officers shall update case status.

FR-06 Document Management

Users and officers shall upload supporting documents.

FR-07 Notifications

The system shall send email or SMS notifications regarding case updates.

FR-08 Dashboard

Administrators shall view real-time statistics and reports.

7. Non-Functional Requirements

Security

- Data encryption
- Role-based access control
- Secure authentication

Performance

- Response time below 3 seconds
- Support 1000 concurrent users

Availability

- 99.5% uptime

Scalability

- Support future expansion to additional agencies

8. User Roles

Role	Permissions
Victim	Submit and track reports
Investigation Officer	Manage assigned cases
Supervisor	Review and approve actions
Administrator	Manage users and system settings

9. Business Rules

BR-01

Each case shall have a unique reference number.

BR-02

Only authorized officers may update case status.

BR-03

Anonymous reporters shall not be required to provide personal information.

BR-04

All activities shall be logged for audit purposes.

10. Assumptions

- Internet access is available.
- Participating agencies agree to share case information.
- Users possess basic digital literacy.

11. Risks

Risk	Impact
Data breaches	High
Resistance to adoption	Medium
Integration challenges	Medium
Incomplete data submissions	Medium

12. Success Criteria

- 50% reduction in case routing delays.
- Improved victim satisfaction.
- Increased reporting rates.
- Better inter-agency coordination.

13. Approval
